SUMMARY

Creative director and product designer with nine years across brand strategy, SaaS product design and campaign production, seven of them delivering for clients remotely. At FlexiSAF I led a rebrand and site rebuild that lifted trial-to-paid conversion 27% in 90 days, on a platform serving 300,000 students and reaching \$1M ARR across Africa. Since 2022 I have run an independent practice and built a generative AI production pipeline that takes campaign delivery from weeks to days. Looking for a senior brand or creative role with a team that hires globally.

EXPERIENCE

Creative Director

May 2022 – Present

Stramm Creative Agency & Cenic AI Studio · Abuja, Nigeria

Independent creative practice. Cenic AI Studio launched January 2025 as the AI production studio.

- Run an independent creative practice serving clients across hospitality, fintech, edtech, fashion and the nonprofit sector, covering brand strategy, identity, campaign production and web build.
- Built the studio's generative AI production pipeline on Seedance 2.0, Higgsfield, Runway, Luma, Midjourney, Nano Banana Pro and ElevenLabs. Campaign delivery went from weeks to days, with enough headroom to test 5 to 10 creative variants where budget previously allowed one.
- Directed "Tiny Hands," a 60-second AI-generated spec film for the TECNO CAMON 50 Pro, owning concept, 16-frame storyboard, prompt system, generation and final edit.
- Deliver full identity systems covering positioning, messaging, visual identity, custom typography and brand architecture, then ship the live sites in Webflow and Framer with no design-to-development handoff. Identity to launch runs two to four weeks.
- Built Priele, a bespoke tailoring house, from positioning through identity and launch, establishing it as a recognised name in its category in Nigeria.
- Write the campaign briefs, brand decks and launch narratives that anchor each engagement, and present them directly to founders, executives and government stakeholders.
- Launched two revenue lines inside the practice: Boldmark, covering print, packaging and signage, and Stramm Creative Academy, a training arm serving corporate and public-sector cohorts.

Product Designer

May 2022 – Jan 2025

FlexiSAF Edusoft Limited · Abuja, Nigeria

- Designed interfaces and design systems for three SaaS products, SAFSIMS, SAFApply and SAFRecords, on a platform serving 70+ institutions and 300,000 active students and reaching \$1M ARR across Africa in 2023.
- Led a rebrand and Webflow rebuild that lifted trial-to-paid conversion 27% within 90 days.
- Rebuilt onboarding and core product flows to reduce switching cost, contributing to a 98% customer retention rate across the suite.
- Owned brand strategy and marketing execution across product, sales and leadership teams, and standardised tone of voice across marketing, product and support surfaces.
- Produced campaign performance readouts and quarterly marketing reviews for the executive team, turning analytics into recommendations on spend and positioning.

Freelance Brand Designer

Mar 2019 – Apr 2022

Independent practice · Abuja, Nigeria · Self-employed

- Ran an independent branding practice for three years, delivering identity and campaign work for clients across healthcare, food, fashion and consumer categories, including Magna Eye Care and Ancient Flavours.
- Built brand identity systems end to end: positioning, logo and visual identity, packaging and collateral, working directly with founders and owner-operators.

- Produced advertising campaign video alongside the identity work, covering concept, production and edit.
- Moved delivery fully remote through the 2020–2021 lockdown period and kept the practice running, which became the operating model carried into the studio founded in 2022.

Visual Communication Designer

Mar 2018 – Feb 2019

Gatefield Nigeria · Abuja, Nigeria · Part-time

- Managed a creative team producing brand identity and advertising assets across advocacy and public-interest campaigns.
- Led graphic, layout and video production for logos, infographics, executive presentations and advertising.
- Worked with the strategy team to align visual communication to campaign objectives.

Visual Communication Designer

Jan 2017 – Mar 2018

Presidency Office of Digital Engagement (PODE) · Abuja, Nigeria · Part-time

- Developed the branding and communication strategy for the official social platforms of Nigeria's Presidency, @NGRPresidency and @PODENG.
- Produced graphics, layouts and video for national-audience channels under tight editorial and approval timelines.

SELECTED WORK

- “Tiny Hands” — TECNO CAMON 50 Pro (spec). 60-second AI-generated product film. Concept, 16-frame storyboard, prompt system, generation and edit.
- Priele. Bespoke tailoring house. Positioning, identity and launch.
- Boldmark. Print, packaging and signage division. Identity and brand architecture.
- SAFSIMS / SAFApply / SAFRecords. Interface and design system work across a three-product SaaS suite.
